Overview of Kentucky Election Night Reporting

Kentucky State Board of Elections uses an online tool called Election Night Reporting (ENR) to display results from elections on a Web site. The Web interface provides visitors with a graphical view of in-depth state and county results. Visitors are presented with a breakdown of votes received for a choice by race. Maps illustrate the counties or precincts reporting, voter turnout, and results by county or precinct. A reporting area provides downloadable reports and custom filtering of results.

How do I access Election Night Reporting?

Election Night Reporting can be accessed by visiting the Kentucky State Board of Elections' Web site at <http://elect.ky.gov> and clicking on **2011 Primary Election Results**.

When and how often will the results be updated?

Once the precinct polling locations have closed, the results are reported to the county. The state aggregates results and then begins reporting results to the public via the ENR tool. Updates occur throughout the night until all counties have reported final election night results.

How do I navigate Election Night Reporting?

The following pages will guide you through how to navigate the ENR tool.

We will review the following areas:

- Home Page
- Synopsis Area
- Summary Tab
- Counties Reporting Tab
- Voter Turnout Tab
- Reports Tab
- Viewing County Results

Home page

When you initially access ENR, you will see a page that resembles the following. This is the ENR home page. From the ENR home page, you can access state and county results. This guide shows you how to navigate the state results, but navigating the county results is similar. The notable difference is that state results are reported by county and the county results are reported by precinct or a summary of the countywide results.

The screenshot displays the Kentucky State Board of Elections website. At the top, the header includes the Kentucky State Seal and the text "KENTUCKY STATE BOARD OF ELECTIONS". Below the header, there are two tabs: "Statewide Results" (active) and "Results by County".
